Grommet Wallet

An Amy Barickman Design

Create a sleek and fashionable billfold style wallet with a grommet & elastic closure. Keep organized with eight separate card pocket dividers. A larger area located behind the card storage provides a place for paper money and a divider for receipts; while the Velcro closed smaller pocket is perfect for coins. Create with two coordinating cottons and finish edges with purchased bias binding. Approximate finished size: closed is 4 1/2" x 8" wide and open is 12 1/2" x 8" wide.
